

CONACyT is the Mexican council on science. One of its programs is funding for postdoctoral researchers. An important goal of the postdoctoral program, is the strengthening of the graduate programs offered in Mexican Universities.

This year the programs is directed to Mexican nationals, and the yearly salary is \$276,000 pesos (21,500 dollars), also \$36,000 pesos (2,800 dollars) for moving expenses. Health insurance is provided by ISSSTE for the researchers and their immediate family.
